

Zatkoff Achieves ISO 9002/QS 9000 3rd Edition

I would like to confirm that the quality system of Zatkoff Seals & Packings complies with the requirements of ISO 9002:1994 & QS-9000:1998 Standards.

I would like to take advantage of this occasion to congratulate you and your team for your achievement of this very important goal.

Once again, congratulations!

Daniel Desilets, Eng.

Distinguished American Award given to Roger Zatkoff

ROGER ZATKOFF is awarded the Distinguished American Award by the Michigan Chapter of the National Football Foundation and College Hall of Fame. Bo Schembechler, former Head Football Coach of the University of Michigan, presented this to Roger at the Michigan High School All-State Banquet. The award was presented to Roger as an individual who has set the standard for excellency in a life of service to the community.

Roger Zatkoff is the CEO and founder of Zatkoff Seals & Packings. After six years of playing professional football with the Green Bay Packers and the Detroit Lions (playing on a championship team), Roger took on the challenge of starting a new business in 1959. Zatkoff Seals & Packings is based in Farmington Hills, Michigan and is a

distributor/manufacturer of sealing systems. The company has a large inventory offering a wide variety of sealing devices along with several other product lines to meet customer needs.

Detroit Lions - #56 ñ Joe Schmidt, #57 ñ Roger Zatkoff, San Francisco 49ers - #14 ñ Y.A. Tittle, #27 ñ R.C. Owens, Referee ñ Ron Gibbs

3M Scotch-Weld™ Structural Plastic Adhesive DP-8005

3M® Scotch-Weld® Structural Plastics Adhesives DP-8005 white and NEW BLACK are 2-part acrylic-based formulations that easily and securely bond many hard-to-bond plastics.

In many assemblies, you can **eliminate mechanical fastening**, avoid the restrictions of plastic welding, and **simplify surface preparation to wiping off dust or oil**. Solvent-free and room temperature curing help save the cost and space of special ventilation, ovens, heaters, and UV lamps.

It's a fast, efficient way to structurally bond polypropylene, polyethylene, polycarbonate, rigid PVC, ABS, polyolefins, glass-filled epoxy, and more such as thermoplastic elastomer (TPEs). You can also bond many plastics to dissimilar materials such as wood, metal, and glass.

Part #	Price (per unit)	Product
3M-6291679930-7	\$42.42	Applicator
3M-62916399355	\$5.00	10:1 Plunger
3M-62916499304	\$1.34	Nozzle
3M-62278604301*	\$16.33	35ml Cartridge

*Must purchase in equal box quantities of 12.

- Epoxy Adhesive
- Acrylic Adhesive
- Urethane Adhesive

1. Plastics include ABS, PVC, acrylic, etc. (polyolefins are not included in this list)
2. Rigid Foam includes beadboard and styrene
3. Rigid Foam includes urethanes
4. LSE (Low Surface Energy) Materials include polyolefin, polypropylene, polyethylene, and powder coated surfaces, etc.

The adhesive candidates listed above are among many 3M Bonding Solutions that can bond your parts more efficiently, economically and reliably. Please consult your Zatkoff Seals & Packings sales representative for more information for product selection and dispensing equipment.
