QUALITY MANAGEMENT SYSTEM

AS9120:B CERTIFIED BY INTERTEK

The quality management system of our Cincinnati branch in Fairfield, Ohio, is AS9120:B certified by Intertek.

Product Portfolio

Utilizing cutting-edge technology, we deliver best-in-class products that advance sealing, EMI shielding, and thermal management efficiency across industry applications for a variety of market segments.

O-RINGS

Rubber, plastics, metal made. Also coated and encapsulated O-rings.

ROTARY SEALS

Custom and standard profiles, sizes, and materials for various temperatures, media, and pressure ranges.

FLUID POWER SEALS

Molded sealing and bearing profiles in various materials including plastics, rubber, PTFE, nylon, and more.

MACHINED PARTS

Tailor-made, economical, and fast standard and custom shapes made out of polyurethanes, elastomers, PTFE, and more.

RUBBER MOLDED PARTS

Custom and standard rubber shapes, boots, bellows, diaphragms, and grommets.

PLASTIC MOLDED PARTS

Custom molded plastic parts for all industries with multi-shot and assembly capabilities.

COMPOSITE PARTS

Over-molded rubber-to-metal, rubber-to-plastic, and resilient metal seals.

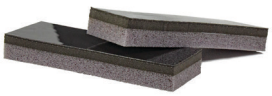

EXTRUSION & LATHE-CUT

Custom profiles including vulcanized door seals, plastic tubing, and precision-cut profiles.

DIE-CUT COMPONENTS

Rubber, PTFE, adhesive tape materials, plastic, foam, paper, PSA lamination, BSR solutions, and structural tape.

STRUCTURAL ADHESIVES

Anaerobic, cyanoacrylate, epoxies, structural acrylic, polyurethanes, MS polymers, and UV light curable.

Value Added Solutions

Our value added solutions help customers increase efficiency. Through our proprietary Integrated ZAP>IT® Solutions, custom barcoded identification for shipping labels and packing slips, advanced shipping notices (ASN), custom kitting, packaging and labeling solutions, and product traceability system, we provide invaluable support to improve our customers' bottom line.

ZAP>IT®

Zatkoff's Integrated ZAP>IT® Solutions offer a collaborative approach utilizing the customer's existing Enterprise Resource Planning (ERP) system data to enable a seamless flow of information between companies. This automated data exchange was developed to handle several actionable file inputs, streamlining the customer's procurement processes. Using analytical intelligence, ZAP>IT® creates automated reports that help prevent errors and inefficiencies typical of traditional supply chain programs.

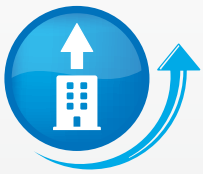

- *Reduce acquisition cost*
- *Streamline procurement processes*
- *Compatible with ERP system data*
- *Utilizes customer's web portal or vendor interface*
- *Seamless interaction between companies*
- *Allows for actionable, granular data insights*
- *Dedicated 60-day stock inventory*

The Zatkoff Family Legacy

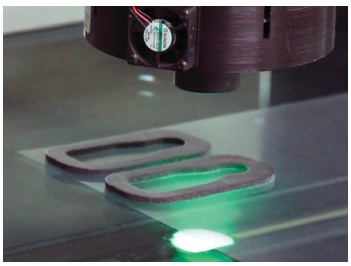

Zatkoff operates on a solid company foundation that was built on family values set forth by our founder, Roger Zatkoff. With a profound commitment to quality, integrity, innovation, and heart, he established our family-based company which has been supported by the talent and passion of several family members over the years. We proudly look to the future as more family members will join our efforts to continue this legacy of providing exceptional service to our customers and community at large.

SERVING CUSTOMERS WORLDWIDE SINCE 1959

- *Delivering parts worldwide with the highest level of service*
- *Providing custom solutions with the lowest total cost of ownership*
- *Providing design and development support from initial concept to finished product*
- *Solutions-focused customer service and sales team of highly-trained and experienced individuals*
- *Sharing knowledge with our customers by performing Tech-Days at their locations*
- *ISO 9001:2015 and AS9120:B certified by Intertek and UL approved for repackaging*
- *Dedication to sustainability and maintaining a healthy environment*
- *Offering strategic partnerships in reaching the best solutions for each customer's specific application needs*
