

2.1 Environmental Policy

Section: 2.1

General

As a Supplier / Manufacturer of sealing products to numerous industries, it is our responsibility to provide products that meet or exceed all customer requirements. This includes all current and active environmental concerns that customers specify on documentation.

We recognize that the choices and decisions we make about the way we manufacture and deliver our products can have both a direct and indirect impact on the environment. As a result we strongly believe that Zatkoff Seals & Packings needs to be an integral part of maintaining a healthy environment which is necessary for the well being of our customers, employees and our society as a whole.

Zatkoff Seals & Packings has implemented programs and trained employees to be aware of the need for reducing waste throughout the organization. We are also working with our supply base to ensure that they meet all necessary environmental regulations for the products they produce.

These beliefs form the basis of our actions and efforts going forward as we strive to achieve a minimal footprint on our environment.

Environmental Policy

Zatkoff Seals & Packings policies reflects our environmental commitment and challenges each of us to find ways to manufacture, purchase, process, store and deliver products to our customers. It is our policy to:

- Comply fully with the intent of all applicable environmental laws and regulations, globally;
- Explore opportunities to exceed current environmental standards including but not limited to environmental protection, pollution prevention, and climate protection;
- Improve management programs that promote environmental care and reduce our impact on the environment;
- Ensure that reviews are conducted on all current aspects of our business which might have a negative impact on the environment;
- Maintain a constructive dialogue with our customers and suppliers on environmental matters and seek out partnerships to achieve results more effectively and efficiently which will ensure full compliance to all laws;
- Train all employees on current environmental requirements and the importance of ensuring that we remain a leader in our industry for protecting the environment;
- Strive for Continual Improvement in our environmental performance.
